

## About us:

Master Line Mechanical Equipment Works LLC engineer components to meet the specific needs of the customer. From one-off's to high volume manufacturing, we can deliver your requirements.

***'Small enough to care, large enough to cope'.***

We were established in 2011 and based in Abu Dhabi. In that time we have built up an excellent reputation, both locally and nationally for our Quality and reliability.

MMEW can offer a solution to your machining, fabrication and DNV requirements, whether they are customer supplied drawings and designs or through discussions to understand the customer's concepts.

Our strength, besides state of the art machinery is a vastly experienced, highly skilled workforce, who have been involved in many sectors of this industry, and have the versatility and commitment to solve challenging requirements.

## Service provided:

We are specialized in:

1. Precision Machining.
2. Manufacturing and repairing oil tools.
3. Heavy machinery repair and maintainance.
4. Structrual engineering.
5. General fabrication.
6. On-site machining and fabrication works.
7. DNV approved Baskets

## Quality Policy:

Quality and value for money are our priority, irrespective of the application, MMEW will always meet the highest world class quality standards to supply our client requirements.

All our work is carried out in accordance with ISO 9001: 2015 standards and procedures. Inspection by accredited bodies and customers is actively encouraged.

## Mission:

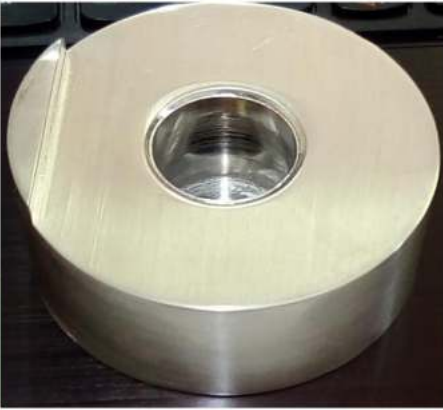

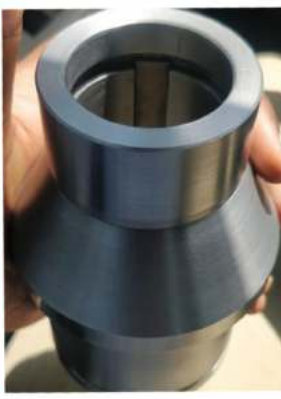

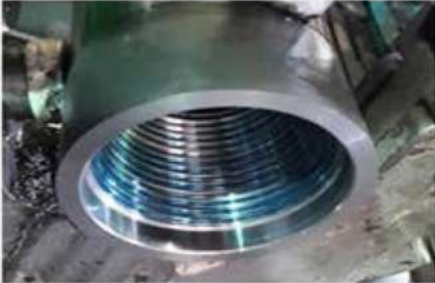

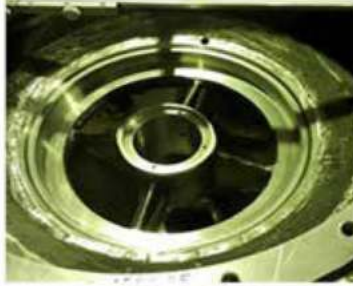

To offer complete engineering solutions with world class standard.

## Vision:

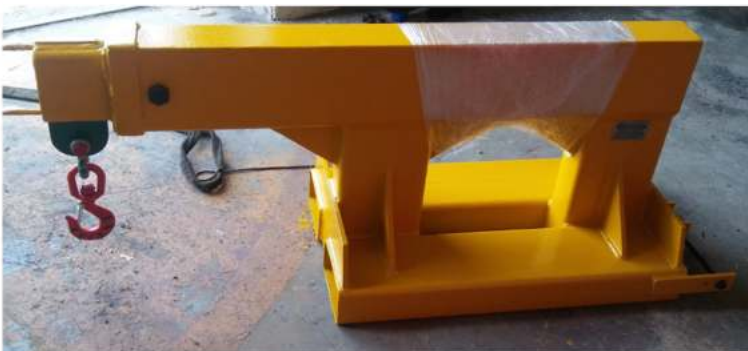

To be a Master in providing word class services to our customer in the field of Mechanical, fabrication and DNV approved Baskets
